More Details

Dr. Hu and Dr. O'Connor's offices will alert MV patients who call the office that this service is available and will schedule their appointments accordingly.

No more than 4-5 patients will be transported on a single day to ensure patient arrival times and admission is practical. Patients should be made aware they could be in the office for anywhere between 2-4 hours as there will likely be staggered admissions, along with surgery start times. Each patient is permitted to bring a companion support though companions should be made aware there may be times when they will need to wait in the van depending on the amount of space in the waiting room. If you unable to identify an escort, one can be provided.

Surgeries and Evaluations are typically the types of appointments this service is best suited for.

How to Schedule a Ride

After making the appointment with Dr. Hu's office or Dr. O'Connor's office, a reservation must also be made on the VTA Medivan. To make a reservation on the VTA Medivan, call 508-693-9440 and select Option 1 no later than 12 noon the Thursday before the appointment. You are welcome to call the VTA as soon as your doctor's appointment is scheduled.

Patients must [register with the VTA](#) prior to making a van reservation. VTA will reconfirm all appointments and van reservations the Friday prior to the scheduled trips.
